Internship

Data Analyst Intern

Jun'2024 – Jul'2024

Practo Technologies Pvt. Ltd. in collaboration with Mentormind.in

- Analyzed a 20K+ record health dataset, identifying key patterns influencing heart disease risk.
- Applied robust data preprocessing and cleaning techniques using Python libraries like Pandas and NumPy to handle missing values, remove inconsistencies, and enhance data quality. Ensured data integrity and accuracy, enabling reliable insights for better understanding of heart disease trends and contributing factors.
- Developed 15+ interactive visualizations using Matplotlib & Seaborn, aiding stakeholders in identifying crucial health trends.
- Translated complex data insights into visually compelling representations, aiding in data-driven decision-making.
- Compiled and structured findings into comprehensive reports and engaging presentations, ensuring clear communication of results to stakeholders.

Projects

Global Economic Indicators / Exploratory Data Analysis, Python3

Aug' 2024 – Nov' 2024

- Conducted an extensive analysis of global economic trends using a dataset covering 220 countries over a 52-year period (1970–2021).
- Analyzed and compared 5 major economies to provide insights into economic growth patterns, trade dynamics, and the impact of population changes on economic productivity.
- Performed time-series analysis on economic indicators from 220 countries over 52 years, identifying key growth patterns and policy impacts.
- Created heatmaps, correlation matrices, and interactive charts using Matplotlib and Seaborn to illustrate economic interdependencies.

Heart Disease Analysis Dashboard / Data Visualization, Tableau

Aug'2023

- Designed and implemented an interactive Tableau dashboard to visualize and analyze health and demographic data, enhancing data-driven decision-making.
- Implemented dynamic filters and interactive visualizations to identify key patterns and risk factors associated with heart disease.
- Leveraged data visualization and analytics techniques to uncover trends and correlations in cardiovascular health data.
- Translated complex datasets into actionable insights, enabling stakeholders to make informed decisions on cardiovascular health trends.

Certificates

Become a Data Scientist

Feb'2023

LinkedIn — Certificate Link

Python for Data Science and Machine Learning

Dec'2022

Udemy — Certificate Link

Technical Skills

Language: Python

Libraries/Tools: Numpy, Pandas, Matplotlib, Seaborn, Tableau

Skills: Data wrangling, Data Visualization, Data Analysis

Education

Lovely Professional University Punjab

Since 2022

Computer Science and Engineering (Data Science and ML) — CGPA: 8.37

Jalandhar, Punjab

Air Force School Chakeri Kanpur

2019 – 2020

Intermediate — Percentage: 95.2%

Kanpur, Uttar Pradesh

Air Force School Chakeri Kanpur

2018 – 2019

Matriculation — Percentage: 95.4%

Kanpur, Uttar Pradesh
